

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	june 2026
Team ID	
Project Name	Comprehensive Analysis and Dietary Strategies with Tableau: A College Food Choices Case Study
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

- 🕒 10 minutes to prepare
- ⌚ 1 hour to collaborate
- 👥 2-8 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

🕒 10 minutes

- A Team gathering**
Data Analyst / Tableau Developer, Nutrition & Wellness Researcher, Survey & Data Collection Lead, Dashboard Design & UX Reviewer.
- B Set the goal**
Analyze college students' food choice survey data to uncover patterns in breakfast habits, calorie awareness, stress-driven eating, and cultural cuisine preferences.
- C Learn how to use the facilitation tools**
Apply Tableau's visualization and dashboarding tools (filters, calculated fields, dashboard actions) to explore the dataset.

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

🕒 5 minutes

PROBLEM

How might we identify the key dietary, lifestyle, and stress-related patterns among college students, and turn them into clear, evidence-based recommendations that improve student health and academic performance?

Key rules of brainstorming

To run a smooth and productive session

- Stay in topic.
- Encourage wild ideas.
- Defer judgment.
- Listen to others.
- Go for volume.
- If possible, be visual.

Step-2: Brainstorm, Idea Listing and Grouping

2

Brainstorm

Write down any ideas that come to mind that address your problem statement.

🕒 10 minutes

Amar

Breakfast freq. vs. focus	Skipped meals in exams	Fast food vs. home-cooked

Yuktesh

Comfort food reasons	Stress vs. snacking	Late-night eating

Person 3

Fruit/veg intake by group	Calorie awareness by year	Hydration habits

Person 4

Cuisine pref. by region	Cafeteria vs. outside spend	Openness to healthy food

Person 5

Dashboard filter by year/diet	Meal regularity vs. energy	KPI: balanced-diet %

Person 6

Exercise frequency segments	Sleep habits vs. diet	Food-delivery app usage

Person 7

Cafeteria recommend dashboard	Healthier combo meals	Salad bar cost impact

Person 8

Stress-eating triggers viz.	Wellness workshop topics	Student awareness infographic

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Give each cluster a sentence-like label.

🕒 20 minutes

1. Meal Regularity & Academic Focus

- Breakfast frequency vs. concentration/focus
- Skipped meals during exams
- Fast food vs. home-cooked comparison

2. Stress & Comfort Eating

- Reasons for comfort food consumption
- Stress vs. snacking correlation
- Late-night eating patterns

3. Nutrition & Calorie Awareness

- Fruit and vegetable intake tracking
- Calorie awareness by year of study
- Hydration and beverage choices

4. Cultural Preferences & Spending

- Cuisine preference by region
- Cafeteria vs. outside food spend
- Openness to healthier alternatives

5. Cafeteria & Wellness Recommendations

- Healthier combo-meal suggestions
- Salad bar cost-impact modeling
- Wellness workshop topics from data

Step-3: Idea Prioritization

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

🕒 20 minutes

✓

After you collaborate

You can export the mural as an image or PDF to share with members of your team or instructors who might find it helpful.

Quick add-ons

☐ Share the mural

Make a live link to the mural with the outcomes of the session.

☐ Export the mural

Export a copy of the mural as a PNG or PDF to attach to emails, tickets, or your submission.

Keep moving forward

☐ Strategy blueprint

Define the components of a new idea or strategy for the next project phase.

☐ Customer experience journey map

Understand student needs, motivations, and pathways for a better experience.

☐ Strengths, weaknesses, opportunities & threats

Identify strengths, weaknesses, opportunities and threats (SWOT) to develop a plan.
