

Sprint: A fixed period or duration in which a team works to complete a set of tasks.

Epic: A big task or project that is too large to complete in one sprint. It is broken down into smaller tasks (stories) that can be completed over multiple sprints.

Story: A small task. It is part of an Epic.

Story Point: A number that represents how much effort a story takes to complete. The story points are assigned using the Fibonacci series: **1, 2, 3, 5**.

1 – Very Easy task

2 – Normal task

3 – Moderate task

5 – Difficult task

Sprint 1

Data Collection (Epic 1)

Gathering Dataset (USN1) – 2

Loading Dataset (USN2) – 1

Data Preparation (Epic 2)

Handling Missing Values (USN3) – 3

Data Cleaning and Creating Fields (USN4) – 3

Handling Inconsistencies in Data (USN5) – 3

Total Story Points in Sprint 1 = 2 + 1 + 3 + 3 + 3 = 12

Sprint 2

Data Visualization (Epic 3)

Breakfast Consumption Chart (USN6) – 2

Eating-Out Frequency Chart (USN7) – 2

Cooking Frequency Chart (USN8) – 2

Lifestyle Pattern Visualization (USN9) – 3

Dashboard (Epic 4)

Developing Interactive Tableau Dashboard (USN10) – 5

Story (Epic 5)

Developing Tableau Story (USN11) – 5

Total Story Points in Sprint 2 = 2 + 2 + 2 + 3 + 5 + 5 = 19

Total Story Points

Sprint 1 = 12

Sprint 2 = 19

Total Story Points = 12 + 19 = 31

Number of Sprints = 2

Velocity = Total Story Points Completed / Number of Sprints

Velocity = 31 / 2 = 15.5

Therefore, the team's velocity is 15.5 Story Points per Sprint.
