

## Project Planning Phase

### Project Planning Template (Product Backlog, Sprint Planning, Stories, Story points)

|               |                  |
|---------------|------------------|
| Date          | 15 February 2025 |
| Team ID       |                  |
| Project Name  |                  |
| Maximum Marks | 5 Marks          |

#### Product Backlog, Sprint Schedule, and Estimation (4 Marks)

Use the below template to create product backlog and sprint schedule

| Sprint   | Functional Requirement (Epic) | User Story Number | User Story / Task                                                                                 | Story Points | Priority | Team Members                           |
|----------|-------------------------------|-------------------|---------------------------------------------------------------------------------------------------|--------------|----------|----------------------------------------|
| Sprint-1 | Data Collection               | USN-1             | As a team, we can collect the dataset containing healthy lifestyle and dietary habit information. | 2            | High     | Shaik Sadaquunnisa, Nikitha, Keerthana |
| Sprint-1 | Data Collection               | USN-2             | As a team, we can load the collected dataset into the analysis environment.                       | 1            | High     | Shaik Sadaquunnisa, Nikitha, Keerthana |
| Sprint-1 | Data Preparation              | USN-3             | As a team, we can identify and handle missing values in the dataset.                              | 3            | High     | Shaik Sadaquunnisa, Nikitha, Keerthana |
| Sprint-1 | Data Preparation              | USN-4             | As a team, we can create and modify fields required for analysis.                                 | 3            | Medium   | Shaik Sadaquunnisa, Nikitha, Keerthana |
| Sprint-1 | Data Preparation              | USN-5             | As a team, we can identify and handle inconsistencies in the data.                                | 3            | High     | Shaik Sadaquunnisa, Nikitha, Keerthana |
| Sprint-2 | Data Visualization            | USN-6             | As a user, I can view breakfast consumption patterns using charts.                                | 2            | High     | Shaik Sadaquunnisa, Nikitha, Keerthana |
| Sprint-2 | Data Visualization            | USN-7             | As a user, I can view eating-out frequency using visualizations.                                  | 2            | High     | Shaik Sadaquunnisa, Nikitha, Keerthana |
| Sprint-2 | Data Visualization            | USN-8             | As a user, I can view cooking frequency using charts.                                             | 2            | Medium   | Shaik Sadaquunnisa, Nikitha, Keerthana |
| Sprint-2 | Data Visualization            | USN-9             | As a user, I can understand overall                                                               | 3            | High     | Shaik Sadaquunnisa,                    |

|          |               |        |                                                                                           |   |        |                                        |
|----------|---------------|--------|-------------------------------------------------------------------------------------------|---|--------|----------------------------------------|
|          |               |        | lifestyle patterns through visualizations.                                                |   |        | Nikitha, Keerthana                     |
| Sprint-2 | Dashboard     | USN-10 | As a user, I can interact with a Tableau dashboard using charts, filters, and KPI cards.  | 5 | High   | Shaik Sadaquunnisa, Nikitha, Keerthana |
| Sprint-2 | Tableau Story | USN-11 | As a user, I can view a Tableau story that presents the major insights from the analysis. | 5 | Medium | Shaik Sadaquunnisa, Nikitha, Keerthana |

## Velocity

**Velocity = Total Story Points Completed ÷ Number of Sprints**

Total Story Points = **31**

Number of Sprints = **2**

**Velocity = 31 ÷ 2 = 15.5**

**Team Velocity = 15.5 Story Points per Sprint**

## Burndown Chart

A **Burndown Chart** shows how much work is remaining during a sprint. As the team completes tasks, the remaining story points decrease.
