

Project Design Phase
Problem – Solution Fit Template

Date	30 june 2026
Team ID	
Project Name	Comprehensive Analysis Dietary Strategies with Tableau:A college food choices case study
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The **Problem–Solution Fit** for the **College Food Choices Case Study** identifies the dietary and lifestyle challenges faced by college students and evaluates how the proposed Tableau-based solution addresses them. It connects customer problems such as irregular eating habits, fast-food consumption, comfort-food choices, stress-related eating, and lack of awareness with interactive data analysis and visual insights.

The purpose is to:

- ☐ Understand the dietary and lifestyle patterns of college students.
- ☐ Identify key problems and behavioral patterns related to food choices and health.
- ☐ Analyze existing habits to identify areas that need improvement.
- ☐ Provide an interactive Tableau solution that transforms food-choice data into meaningful insights.
- ☐ Help students and stakeholders recognize patterns in breakfast, comfort food, exercise, weight, and health.
- ☐ Support healthier dietary awareness and informed decision-making through visualizations, dashboards, and a Tableau Story.
- ☐ Understand the existing food-choice situation in order to develop useful dietary strategies for college students.

Template:

Problem-Solution Fit Canvas			Purpose / Vision: To analyze college students' food choices and lifestyle patterns and provide dietary strategies through interactive Tableau visualizations.	Version: 1.0
Define CS, fit into CL	1. CUSTOMER SEGMENT(S) CS - College students - Students interested in healthy eating - College health and wellness teams - Nutrition and dietary researchers - Educational institutions	6. CUSTOMER LIMITATIONS CL EG. BUDGET, DEVICES - Limited nutritional knowledge - Lack of time for detailed analysis - Difficulty interpreting raw data - Limited awareness of healthy habits - Data may not represent all students	5. AVAILABLE SOLUTIONS AS PROS & CONS - General nutrition websites - Diet and calorie tracking applications - Health and fitness applications - Manual survey analysis - Traditional statistical reports	Explore FS alternatives
	2. PROBLEMS / PAINS PR + ITS FREQUENCY - Irregular breakfast and meal habits - High fast-food consumption - Unhealthy comfort-food choices - Stress and boredom-related eating - Lack of awareness of healthy dietary patterns - Difficulty understanding lifestyle and health relationships	9. PROBLEM ROOT / CAUSE RC - Lack of awareness about dietary habits - Busy college lifestyle and schedules - Stress-related eating behavior - Convenience of fast food - Limited time for meal preparation - Different lifestyle and exercise patterns	7. BEHAVIOR BE + ITS INTENSITY - Skip or vary breakfast habits - Consume fast food - Eat comfort food during stress or boredom - Follow different exercise routines - Search online for diet and health information - Use health and fitness applications	
Focus on PR, fit into BE, understand RC	3. TRIGGERS TO ACT TR - Understand student food habits - Identify unhealthy eating patterns - Improve dietary awareness - Compare health-related behaviors - Explore lifestyle and food-choice trends	10. YOUR SOLUTION SL - Analyze college food choices and lifestyle data - Prepare and validate data using Tableau - Create interactive visualizations - Analyze breakfast, comfort food, exercise, weight and health patterns - Develop an interactive dashboard - Use filters for better exploration - Present insights through a 5-scene Tableau Story - Support dietary awareness and healthier decision-making	8. CHANNELS OF BEHAVIOR CH - College health programs - Social media - Nutrition and health websites - Fitness applications - Educational platforms - Online search engines	Extract online & offline CH of BE
	4. EMOTIONS EM BEFORE / AFTER Before: - Unaware of unhealthy food habits - Concerned about weight and health - Confused about dietary choices After: - Better awareness of food habits - Understanding of important patterns - Support for healthier choices			
Identify Actions (TR & EM)		Focus on PR, fit into BE, understand RC
